

Good morning,

I wanted to express my support for HB 6335, HB 6334 and HB 942, with amendments. I am opposed to HB 5499 and SB 522. I would also ask that you hold a public hearing on the bill banning trapping. I believe how we treat our animals is a direct reflection of our society and values. By supporting animal welfare through legislation, you are furthering a more compassionate and just world.

Many thanks,

Susan Etkind
